Alldatasheet is...

Back in 2003, ALLDATASHEET was created to help engineers quickly find a vast volume of datasheets in a more effective way.

Since then, we have focused exclusively on technical development to better serve our global users. Thanks to our efforts, Alldatasheet became the most popular and powerful site for users searching for datasheets in January 2008.

As our popularity has grown, we've worked hard to provide even better services to our users. Our visitor numbers have increased day by day, and now most engineers visit our site to find the datasheets they need.

We always strive to provide utmost satisfaction to our users.

About Alldatasheet

ALLDATASHEET is the biggest online electronic component datasheets search engine.

- Contains over 50 million semiconductor datasheets.
- More than 60,000 Datasheets update per month.
- More than 14,000,000 Searches per month.
- More than 28,000,000 Impressions per month.
- More than 9,990,000 Visits per month all around the world.
- More than 7,600,000 Unique users at Alldatasheet.

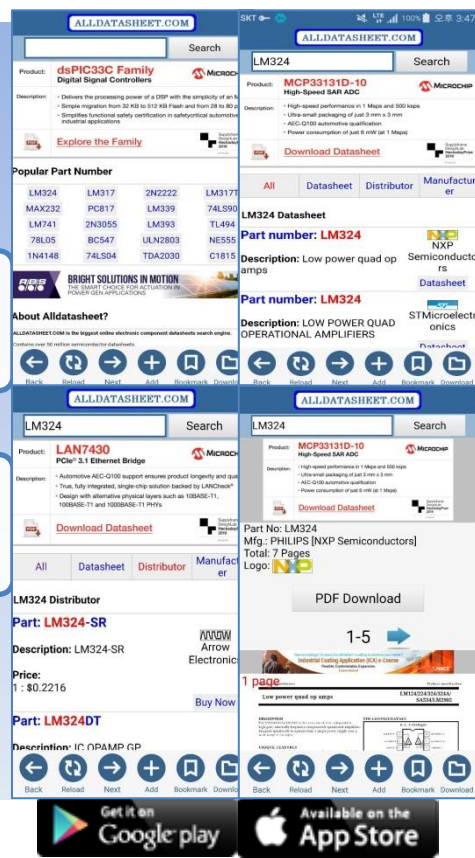

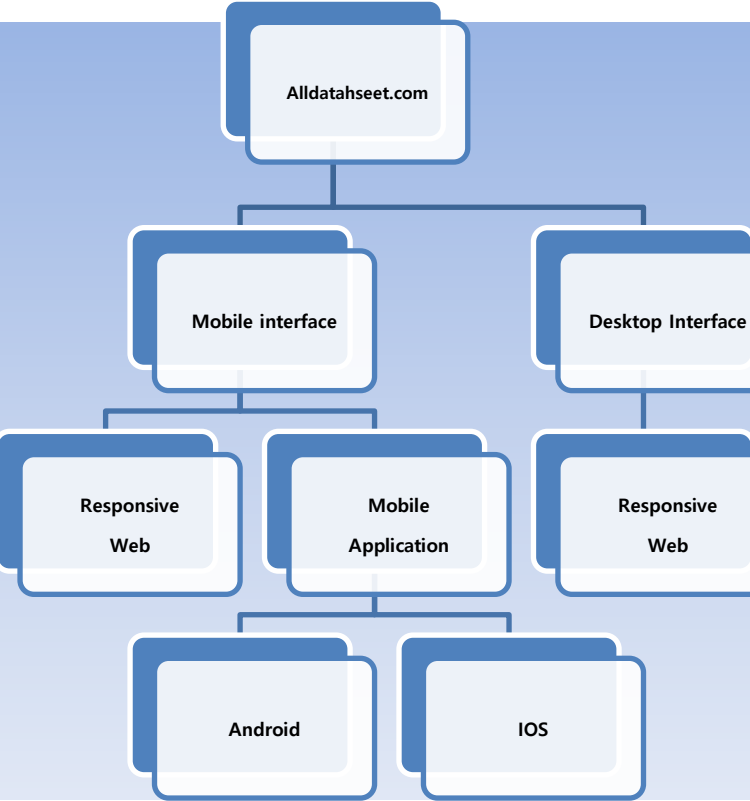

(As of March 2024)

Alldatasheet Interface Information.

Alldatasheet interface by device

[Interface diagram]

[Mobile application]

Alldatasheet.com offers users various interfaces designed to enhance user convenience.

To keep up with the global trend towards mobile devices, we provide interfaces specifically tailored for mobile devices.

In July 2015, we launched our mobile application to adapt to changing user needs. Since it release, the application's usage rate has steadily increased and remains popular among our users.

Our mobile application is available for free download on Google Play or App Store.

We continuously strive to meet our users' satisfaction by delivering the best experience possible.

How does Alldatasheet get datasheets

Alldatasheet has two main processes for obtaining datasheets:

1. We proactively find datasheets based on users demand. Given the frequent requests for datasheets of new electronic components, we search for and regularly update these on Alldatasheet to satisfy user needs. Additionally, we update datasheets specifically requested by users.
2. Electronic components manufacturers often request to upload their datasheets on Alldatasheet to serve their customers better. As our website has become a preferred source for electronic component datasheets, over 1,000 manufacturers have registered with us so far, and we continue to receive new registration requests.

We take pride in providing comprehensive, reliable datasheets to our users. By constantly updating our database with new and requested datasheets, we strive to meet the evolving needs of the electronic component industry.

Alldatasheet Visitors Information

Alldatasheet Visitors by Countries

Alldatasheet Visitors by Countries

Alldatasheet Visitors distribution map from all over the world.

Google Analytics Research data of March 2024

Alldatasheet has around 10,000,000 visits from more than 200 countries worldwide. In terms of continental distribution, Americas, Europe and Asia collectively account for 94% of total visits, while Africa and Oceania together make up less than 6% of total visits.

- **More information on the next page** -

As shown on the Map, United States, China, Russia are the most visited countries from the continent of the Americas, Asia and Europe. Among the top 20 countries, there are 9 European Countries, 5 Asian Countries and 4 American Countries, 1 African country listed.

Top 20 Visitor countries are well-developed in the Electronic components and Semiconductor industries, and include several up-and-coming nations.

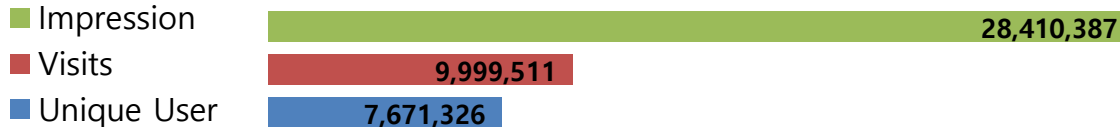

All of the results are based on Google Analytics on March 2024.

Alldatasheet Visitors Information

Alldatasheet Visitors Information by Continents

Alldatasheet Visitors by Continents

- Alldatasheet Total

- Visitors by Continent

| Continent | Impression | Visit | Unique User | Unique User (%) |
|--------------|-------------------|------------------|------------------|-----------------|
| Asia | 12,279,434 | 4,505,066 | 3,400,509 | 44.33% |
| Europe | 8,066,143 | 2,962,177 | 2,312,773 | 30.15% |
| Americas | 6,704,783 | 2,016,107 | 1,613,561 | 21.03% |
| Africa | 1,217,249 | 459,873 | 303,348 | 3.95% |
| Oceania | 136,081 | 52,781 | 38,298 | 0.50% |
| Not Set | 6,697 | 3,507 | 2,837 | 0.04% |
| Total | 28,410,387 | 9,999,511 | 7,671,326 | 100.00% |

Google Analytics Research data of March 2024

Visitors Research Data in March 2024, Alldatasheet’s Total Impression is over 28,000,000 and Total Visits counted more than 9,900,000. Total Unique User of Alldatasheet is over 7,600,000.

Alldatasheet has world-wide users and many of Alldatasheet users are working in engineer & engineering management or design & development.

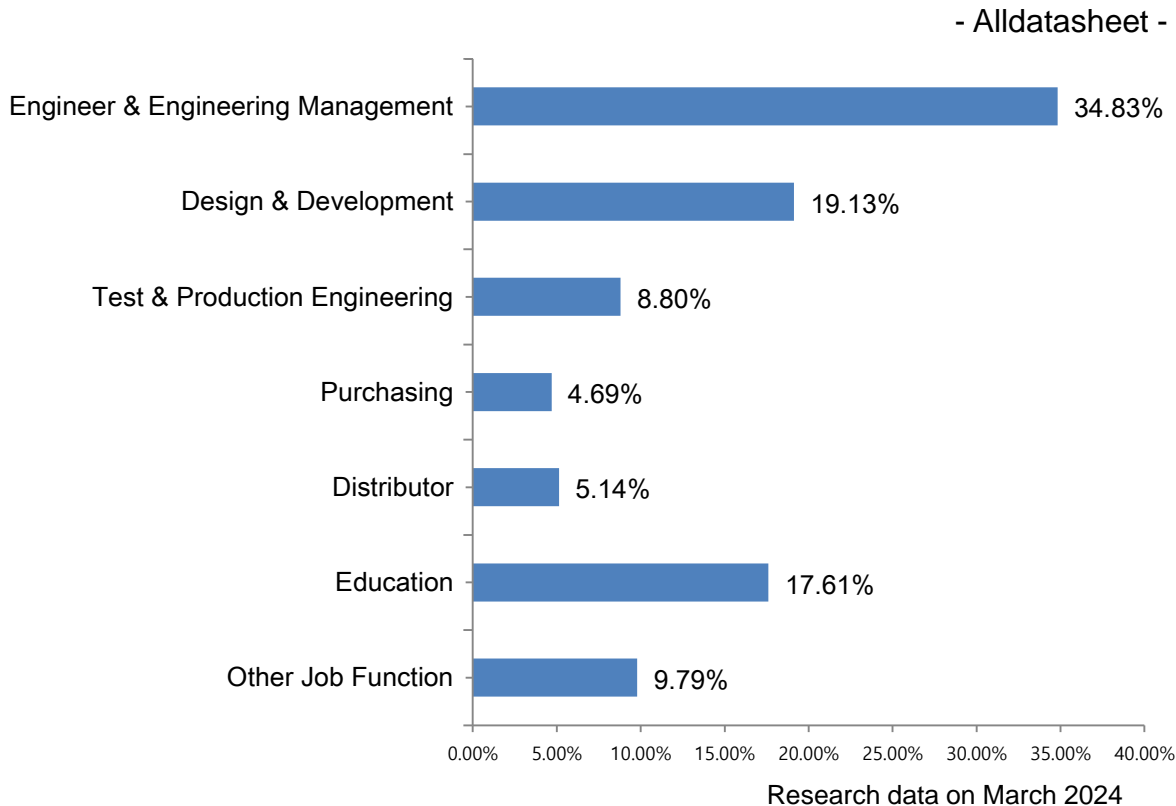

As you can check from the ‘Visitors by continent’ table, Asia has over 4,500,000 Unique Users and Europe and Americas have over 2,960,000 and 2,000,000.

Asia, Europe and Americas takes over 95% from Total Unique Users.

Alldatasheet Visitor's Information

Alldatasheet User's Job Function

What is Your Job Function?

Majority of **Alldatasheet's** users, nearly 35%, work in Engineer & Engineering Management. Design & Development accounts for 19% ,while Test & Production Engineering comprises just under 9%.

These three job functions, are closely related to Engineering & Development, collectively represent 63% of our user base. Additionally, over 90% of our users are involved in the Semiconductor and Electronic Components industry.

Alldatasheet is renowned as a 'Accessible' website and maintains strong ties with educational sector. University Students and Professors regularly utilize Alldatasheet for their study, project and beyond.

As the most famous datasheet search website globally, Alldatasheet continuously strives to provide the utmost satisfaction to our users and partners.
